

2<sup>ND</sup> ANNUAL  
*Forward Together*  
Lecture

**Tuesday 30 March 2010**

**7:30 pm**

**Education Auditorium**

**University of Regina**

*In Wildness Is the  
Resurrection of Our World*

Six thousand years of agriculture have created ecological crisis throughout the world, but nowhere is the story more dramatic than in the North American grassland. But here also, nature has given us clear instructions as to how we must redesign agriculture and economy to resurrect the creative power of the plains. These instructions point the way not only to ecological restoration, but also to revived economy and human wellbeing.

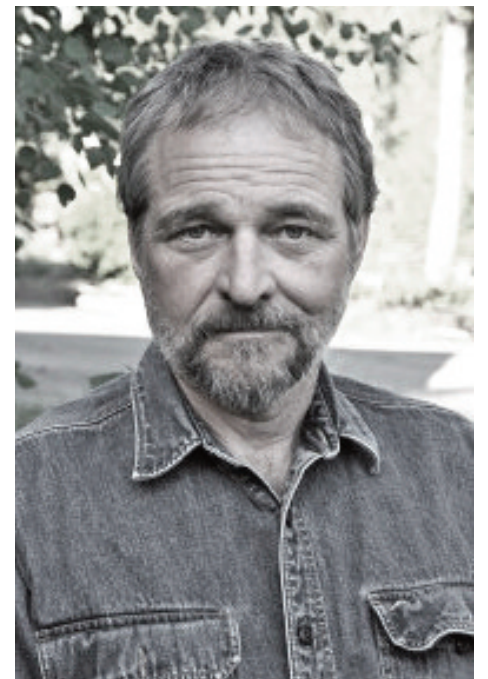

**All are welcome**

Free parking in lots 4, 14 and 17 (designated "M" areas)

Book sale and signing will follow

FEATURING

**RICHARD  
MANNING**

Richard Manning has worked as a consultant on agriculture, poverty and the environment to the McKnight Foundation, the Rockefeller Foundation and the Food and Agriculture Organization of the United Nations, and he has spent over thirty years as a journalist in Montana and Idaho. Manning has written numerous award-winning essays, magazine articles and books, and in 1995 he was the recipient of a John S Knight Fellowship from Stanford University. His recent books include *Against the Grain: How Agriculture Has Hijacked Civilization* (2004) and *Rewilding the West: Restoration in a Prairie Landscape* (2009). Manning teaches at the University of Montana and resides near Missoula.
