Garth Pickard, Ph. D., Co-ordinator  
United Nation University RCE Saskatchewan  
Sustainable Infrastructure Working Group  
([garth.pickard@uregina.ca](mailto:garth.pickard@uregina.ca))

Dear Dr. Pickard:

Thank you for your correspondence regarding the proposed Yancoals Southey Potash Project.

As you know, the Yancoals project is currently undergoing an environmental impact assessment (EIA). The purpose of the EIA process is to ensure economic development proceeds with appropriate environmental safeguards and in a manner broadly understood and acceptable to the public. Public participation is a key component of the EIA process and will be taken into consideration when making a decision under *The Environmental Assessment Act*. All individuals who submit comments during the public review of the EIA process will be notified once a decision has been made.

Once again thank you for your email and interest in the Yancoals Southey Potash Project. If you would like more information on the environmental assessment process or status of the EIA for the Yancoals project please visit [saskatchewan.ca/environmentalassessment](http://saskatchewan.ca/environmentalassessment).

Sincerely,

A handwritten signature in blue ink, appearing to read 'Herb Cox'.

Herb Cox
